Expand with ease

Quickly and easily add features, including integrations with top service providers. And Companion scales smoothly from one location to a global enterprise, incorporating industry best practices for data security and privacy. The subscription model ensures services are tailored to your specific needs.

- Custom branding options make the app your own
- Employees and tenants download the app from Google Play or the Apple App Store
- Administrators get information and reports via the intuitive web portal
- Johnson Controls integration and deployment experts provide ongoing support

Measure building performance

Companion offers out-of-the-box and tailored reporting to help you track progress toward key goals. Paired with OpenBlue Enterprise Manager, Companion delivers powerful insights into how spaces are occupied and used, cross-referenced with energy consumption and other data. Create a data-rich picture of your facility, drawing on all your existing systems.

Companion delivers value across the hybrid workspace

Yiyi, Marketing Analyst

Companion gives Yiyi easy ways to interact with spaces and technology. She enjoys control, information and support—increasing safety, efficiency and productivity.

· Frictionless entry to the building
· Desk and room reservations
· Live maps and navigation
· Comfort control
· SOS button
· Building news

Rohit, Facility Manager

Smart space management is easier for Rohit with Companion. He can better engage occupants to achieve building goals related to sustainability and lower operating expenses.

· Reduced hot/cold calls
· Better helpdesk workflow
· Digitized floor plans
· Space use monitoring
· Shared building data, news, and alerts

Javier, Property Manager

For owners and building leaders like Javier, Companion helps achieve business and building goals.

· Unified technology for occupant experiences
· Attractive, welcoming space
· Informed space use decisions
· Scalable, secure deployment
· Continually added value

Work with a market leader in smart building IoT

Independent researchers have named Johnson Controls a market leader in building system integration platforms. Green Quadrant: IoT Platforms for Smart Buildings 2022, released in January 2022 by Verdantix, highlights Johnson Controls strengths in **space booking and comfort management** – thanks to occupant-facing apps such as Companion.
